

31 March 2025

OPERATIONS UPDATE IN RESPECT OF EARTHQUAKE IN MYANMAR

The board of directors (the “**Board**”) of Interra Resources Limited (the “**Company**”) refers to the unfortunate disaster in Myanmar caused by an earthquake of 7.7-magnitude which struck the Sagaing region near Mandalay in north-western Myanmar on 28 March 2025. The Board wishes to update its shareholders that the Company’s oil fields are located in southeast Central Myanmar and are at present, not materially affected by the disaster.

The Company has been informed by its field operations in Myanmar that, as a result of the earthquake and tremors, electricity supply was disrupted and operations at the two fields in Chauk and Yenangyaung were temporarily halted due to power outages but resumed at reduced capacity using back-up generators. No work-related injuries were reported. The access roads to both fields were undamaged and remained accessible, hence operational logistics and transport were not affected. With an effective set of health and safety protocols in place, which encompasses awareness, preparedness, prevention, response, recovery and emergency measures, the fields are expected to resume full production shortly.

The field management has confirmed that there was no damage to the homes of field employees and that it will prioritise their safety and well-being. Further to its long-established corporate sustainability and welfare programme aimed at supporting the local community, which includes the regular distribution of food essentials such as rice and cooking oil to the local communities, the Company will be committing additional financial aid to support relief efforts and its Myanmar team will be reaching out to legitimate and reputable organisations to provide food, medical supplies and other essentials to aid the victims of the earthquake.

The Company will continue to closely monitor the situation in Myanmar and provide further updates if there are material developments which affect its field operations in Myanmar.

Shareholders are advised to exercise caution when dealing in the shares of the Company. Persons who are in doubt as to the action they should take, should consult their stockbrokers, bank managers, solicitors, accountants, or other professional advisers before taking any action in relation to their shares which may be prejudicial to their interests.

By Order of the Board of Directors of
INTERRA RESOURCES LIMITED

Ng Soon Kai
Executive Chairman

About Interra

Interra Resources Limited, a Singapore-incorporated company listed on SGX Mainboard, is engaged in the business of petroleum exploration and production (E&P).
